# PERPETUUS

## A FRAGILE GENESIS

*Imponderable*

44 x 58"

Acrylic and Oil on Canvas

2021

\$6,500.00

The depiction of a wetland with the sun rising in the background. Three red winged black birds are perched over shadowy cattails and a spattering of dragonflies. Upstate New York is home to several wetlands, bogs and marshes which all seem so empty at first glance, but upon closer inspection life finds a way! These ecosystems are home to a great variety of life that is often overlooked.
